A correction to the article J. Tohka, Y. He and A.C. Evans. The impact of sampling density upon cortical network analysis: regions or points. Magnetic Resonance Imaging, 30(7):978 -992, 2012.

- Eq. (3) on page 982 should read:

$$\hat{lb}_i^T = \frac{lb_i^T - \text{median}_i(lb_i^T)}{1.483\text{median}_i(|lb_i^T - \text{median}_j(lb_j^T)|)}. \quad (1)$$
